Green Today

Tribute to Green Day

About

From the early records through American Idiot and Saviors, Green Today follows a broad stretch of Green Day music. The Anaheim tribute combines the band's look, harmonies, and hooks in a live rock show. Basket Case, Longview, and When I Come Around connect with the earlier material, while 21 Guns and Wake Me Up When September Ends show another side of the repertoire. The program reaches across several eras rather than staying with one album.
