Life in Technicolor

A Tribute to Coldplay

About

Audiences are invited to experience a breathtaking tribute to rock and pop royalty with Life In Technicolor. Taking the U.S. by storm, this premier production is dedicated to delivering the euphoric, stadium-sized energy that has made Coldplay a global phenomenon.

Life In Technicolor goes far beyond a standard cover set. Their live performance is a meticulously crafted sonic journey through Coldplay's legendary catalog. From the raw, emotive power of "Yellow" and "Fix You" to the driving, anthemic rhythms of "Clocks," "Viva La Vida," and "Adventure Of A Lifetime," the band captures the heart and soul of the music.

While the lineup features world-class musicians—including a globally respected NYC touring drummer and a seasoned progressive-pop frontman—their individual accolades serve one singular purpose: to recreate the magic of a Coldplay concert with startling authenticity. Every sweeping piano melody, shimmering guitar texture, and soaring vocal harmony is delivered with the precision and passion fans expect. For those who want to be transported back to the center of a sold-out stadium tour, Life In Technicolor is the definitive live tribute.
